ABOUT THE JOB

The IEM is responsible for diagnosing, repairing and maintaining industrial equipment for a 100-acre facility.

ESSENTIAL FUNCTIONS & MAJOR RESPONSIBILITIES

- Follows all safety and company policies / procedures and promotes a safe culture.
- Regular, reliable, predictable attendance and performance of the essential functions.
- Confers with operations and observes, tests and evaluates operation of machinery and equipment to diagnose cause of malfunction.
- Repairs, replaces, adjusts and aligns components of machinery and equipment.
- Fit bearings, shafts, attach motors and connect and align couplings and belts to precise tolerances.
- Performs pipe fitting of both threaded and welded pipe of various sizes.
- Fabricates replacement parts.
- Test-run repaired machinery and equipment to verify adequacy of repairs.
- Cleans and lubricates parts, equipment and machinery.
- Examines parts for defects, such as breakage and/or excessive wear.
- Logs/records repairs and maintenance performed.
- Rigging and overhead crane operation, lifting device use and inspection and load calculations.

- Ability to read and interpret documents such as safety rules, operating and maintenance instructions and procedure manuals.
- Other duties as assigned.

KNOWLEDGE, SKILLS & ABILITIES

- Ability to problem solve, multitask and work independently with attention to detail.
- Basic math skills.
- Ability to work against and meet deadlines.
- Knowledge in the operation, troubleshooting and repair of hydraulic and pneumatic equipment.
- Ability to read and/or interpret mechanical, pneumatic and hydraulic blueprints or schematics.
- Understanding of overhead crane trouble shooting and repair.
- Ability to apply common sense understanding to carry out detailed but uninvolved written or oral instructions.
- Ability to deal with problems involving a few concrete variables in standardized situations.
- Average knowledge and use of Microsoft Office products including Excel and Word and Outlook.
- SAP knowledge preferred but not required.
