ABOUT THE JOB

The QC Inspector monitors quality and ensures product meet QA/QC standards and specifications. The QC Inspector shall be knowledgeable in QA/QC equipment operations and associated documentation of inspections and testing.

ESSENTIAL FUNCTIONS & MAJOR RESPONSIBILITIES

- Effectively communicate QA/QC requirements and objectives between supervision and lead personnel
- Assure product meets and/or exceeds standards and specifications
- Perform NDE inspection and documentation (as qualified)
- Maintain documentation
- Work at a pace sufficient to obtain quality and quantity of inspection/testing, consistent with operational requirements
- Other duties may be assigned by the QC Lead, or QA Manager.
- Areas these duties will be performed will include one or more of the following areas:
 - Dimensional Inspection
 - Weld Inspection
 - Coating and Lining Inspection
 - Lab Testing
 - Final Inspection

EDUCATION/EXPERIENCE

- High school diploma or general education degree (GED); or One to three months related experience and/or training; or Equivalent combination of education and experience.
- Certified Welding Instructor (CWI) – required for A thru C Inspectors
- NACE Certification preferred

Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.
