- Assist in the investigation of incidents, near misses and property damage incidents including a root cause analysis. Ensure follow-up is done to minimize future exposure and proper records/documents are maintained.
- Conduct, coordinate and track various training to support company programs.
- Conduct routine safety observations to ensure compliance with regulatory agencies, company environmental, health, and safety policies, procedures and practices.
- Maintain internal and regulatory reporting including data collection and reporting including but not limited to air, storm water and surface water discharge.
- Ensure the company meets all its legislative compliance obligations with OSHA, CAL/OSHA, EPA, AQMD, ADA, and fire codes.

- Serve as a resource for all regulatory agencies for inspections, permitting, reporting (air, water, waste).
- Maintain compliance with permits, government regulations and other industry practices.
- Lead Company Sponsored Safety Teams.
- Conduct Compliance Audits & Abate Safety Hazards.
- Manage Safety Data Sheets, Job Hazard Analyses and other required documents pertaining to safety.
- Maintain OSHA logs and employee health and statistic (EH&S) reports for Management.
- Assist with implementation of PIT program at the facility.
- Attend scheduled safety meetings with NWP workforce and management.
- Keep abreast of any safety and environmental law or regulation changes that affect the organization.

SECONDARY RESPONSIBILITIES:

- Participate in manufacturing meetings to discuss workplace safety and regulatory concerns and opportunities.
- Actively role model all company environmental, health and safety standards.
- Establish and maintain effective relationships with Operations, Managers, Supervisors and employees.
- Keep the Operations Manager, Plant Manager, Safety and Environmental Manager and Human Resources Generalist up to date on matters relating to, environmental, health and safety.
- Assist in the oversight of the Worker's Compensation and Return to Work programs.
- Special projects as required.

KNOWLEDGE, SKILLS, ABILITIES:

- Proficient PC skills including Microsoft Office applications
- Ability to be on call or work off hours as needed
- Demonstrated ability to work independently with attention to detail and organizational abilities
- Superior analytical/ problem solving, written and verbal communications
- Experience working with local regulatory agencies preferred.
- Familiar with various emission control devices to ensure compliance.
- Bilingual (Spanish/English) preferred

EDUCATION/EXPERIENCE:

- BS in Occupational Health and Safety or related field (preferred)
- 1 – 5 years experience in manufacturing environment with responsibility for Environmental, Health and Safety (preferred)

Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.
